EUREKA ATOM 60

Electronic grinder

- "Silent Technology" reducing the grinding noise by 15/20 dB compared to the conventional grinders.
- "Espresso & Brew": the special burrs design makes Atom a suitable grinder for both Espresso and Filter coffee;
- : "High speed" grind dispersion
- Stepless micrometric regulation system (patented by Eureka)
- 5 buttons "Barista Special" electronics with "Start&Stop" function and "Extra Dose" mode.
- ACE System conceived to prevent the presence of clumps and eliminate the electrostatic charge of ground coffee.
- i All Purpose Fork for "Hands-Free" operations.
- Compact Dimension conceived to optimize the barista space.
- i "High Speed" Maintenance without losing the grinding setting.
- Frick die-cast aluminium body

Colour

Grinding capacity depends on the type of coffee, the roasting process and the particles size (fine or coarse)
