

OMM

Free Standing Electric Fryer

Free Standing Electric Fryer

OMAJ (NTG14E), This model is designed to provide customers with economical, simple operation and easy maintenance options. At the same time, it still provides high-quality cooking services, which is very suitable for chain stores with small kitchens or take-away express service stores. This type of heating tube is of fixed design, providing users with a safer and more reliable cooking operation environment. At the same time, its low power density and extremely high thermal efficiency band heating tube can quickly return to temperature, and achieve the effect of golden and crisp food surface and keep the internal moisture from losing. Wide frypots with cool zone design helps to catch food debris and prevent it carbonized. Bottom of frypots is sloped toward the front and are equipped with a 1-1 / 2 inch drain so crew members can quickly flush out sediment and remove old oil.
